PROJECTOR - QUICK START

TURNING IT ON
PRESS POWER ON THE REMOTE. THE PROJECTOR SETS ITSELF UP IN A MINUTE OR TWO. FIRST A VERY BRIGHT LIGHT FILLS THE ROOM (NORMAL, SO DON'T LOOK INTO THE LENS). THEN A CHECKERBOARD PATTERN APPEARS WHILE IT CALIBRATES AND FOCUSES ON THE SCREEN BY ITSELF. WI-FI IS ALREADY CONNECTED.

IF YOU'RE ASKED TO CHOOSE AN ACCOUNT, SELECT SQRL NEST. THAT OPENS THE HOME SCREEN WITH ALL THE APPS AND ENTERTAINMENT.

PICTURE WAY TOO BIG, BLURRY OR OFF THE SCREEN?
GENTLY PICK UP THE PROJECTOR, MOVE IT SLIGHTLY LEFT AND RIGHT, THEN SET IT BACK DOWN. IT WILL RUN THE BRIGHT-LIGHT SETUP AGAIN AND REFOCUS.

IT FINDS THE SCREEN MOST EASILY WHEN IT'S CLOSER TO THE BED. ONCE THE PICTURE FITS THE SCREEN, YOU CAN SLOWLY MOVE IT BACK.

TO ADJUST IT BY HAND PRESS THE GEAR, ALL SETTINGS, PROJECTOR, MANUAL KEYSTONE CORRECTION OR MANUAL FOCUS.
